Investment Options for Credit Unions

We help credit unions succeed in serving their members by providing a professionally managed family of mutual funds exclusive to credit unions as well as the information and analysis they need to support investment decisions.

Created by leading credit unions with oversight by a board of trustees, Trust's mutual fund options are professionally managed, and are based on the cooperative values of credit unions.

Today, we offer two fixed income mutual funds that comply with NCUA investment regulations and are designed for the diverse needs of our credit union investors:

- **Ultra-Short Duration:** 3-month duration target
- **Short Duration:** 2-year duration target

To learn more about how our mutual funds can help your credit union, visit our website at www.trustcu.com or call us at **(800) 237-5678**.

The Trust for Credit Unions is a registered open-end, management investment company (commonly known as a mutual fund) that offers portfolios solely to U.S.-domiciled state and federally chartered credit unions. An investment in a Portfolio is not a credit union deposit and is not insured or guaranteed by the National Credit Union Share Insurance Fund, the National Credit Union Administration, or any other government agency. An investment in a portfolio involves investment risks, including possible loss of principal. An investor should consider a portfolio's investment objectives, risks, charges and expenses carefully before investing or sending money. This and other important information about the portfolios can be found in the fund's prospectus. To obtain a prospectus, please call 1-800-DIAL-TCU or visit www.trustcu.com. Please read the prospectus carefully before investing.
